## Dewang Mehta IT Award-2019

### Summary:

Mehta played the role of the guru, guiding the central and state Governments in their path towards IT-fication. He helped at least 19 state Governments draft their IT policies, and create the requisite infrastructure to aid the cause of software within their realms.

Besides a dream for the software industry, Mehta had a blueprint for the IT industry and how it could be used effectively to change the lives of India's teeming millions. He wanted the benefits of IT to peter down to the grass root levels and his favourite slogan, "roti, kapada, makan, bijli and bandwidth" epitomized the needs of the emerging, 21st century Indian.

The Government of Gujarat decided to honour the son of soil late Shri Dewang Mehta by Institutionalizing an IT award for the Degree Engineering students of Gujarat. The GR was issued on 26th June 2001 constituting and formalizing Shri Dewang Mehta IT award. The award will be given annually to three final year student/ team of students doing IT or Computer/ Computer Science from the Engineering colleges of Gujarat (Govt and Deemed) based on the evaluation of the technical project.

Weightage will also be given to the presentation and communication skills of the student/s. Cash award up to Rs. 1 Lakh to be given to three students/ teams each.

Virani Science College, NCC unit of Atmiya University and Happiness Club in collaboration with the Green Team of Rajkot and the trust of the temple.

A team of 65 students along with 5 faculty members Yuvrajsinh Kanchava (NSS officer, Atmiya University) from Mechanical Engineering Department, Paras Kalariya from Information & Technology Engineering Department, Ashraf Mathakiya from Civil Engineering Department, Suresh Koradiya (NCC officer) and Rahul Gohil (NSS officer, Shri M. Mr. BharatBhai Korat was the member from the Green Team Rajkot along with trustees of the Temple for planning the plantation of trees.

Different varieties of trees were planted according to the miyawaki method of afforestation / planting trees. By closely planting many random trees close together in a small area enriches the green cover and reinforces the richness of the land. This will lead to co-existence of plants and as a matter of fact each plant draws from the other vital nutrients and they grow to become strong and healthy. More than 500 plants of nearly 24 different varieties were planted by the students in 4 hours of time period.

Mr. Bharatbhai Korat explained the Miyawaki method and its benefits to the students along with the need for conservation of nature by planting the trees and using the resources rightly. The program was coordinated by the NSS Program officer Mr. Yuvrajsinh Kanchava and NCC officer Mr. Suresh Koradiya.
