### Inaugural Session

**EVENT 1- SPELLBEE –**

Spelling Bee is a competition of spelling words in English, fast and precisely. In this competition, participants must quickly spell English words spoken by the pronouncer. The participant who can spell the most words correctly in the shortest time will be the winner.

The purpose of this competition is to train the attentiveness in listening to the words and accuracy in spelling the words, enrich vocabularies and enhance their ability in writing and pronouncing English words of the participants.

**EVENT 2- POETRY RECITATION**

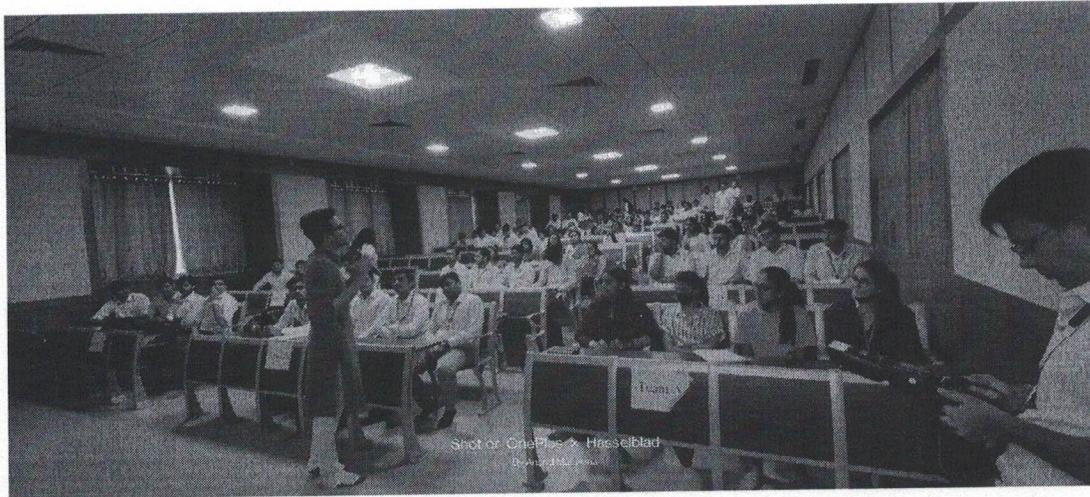

Students will use basic performance techniques to explore interpretive potentials in a single poem. This workshop is designed to help students prepare for a real performance in a public setting (in front of the class or a larger audience).

### EVENT 3- MELA QUIZ

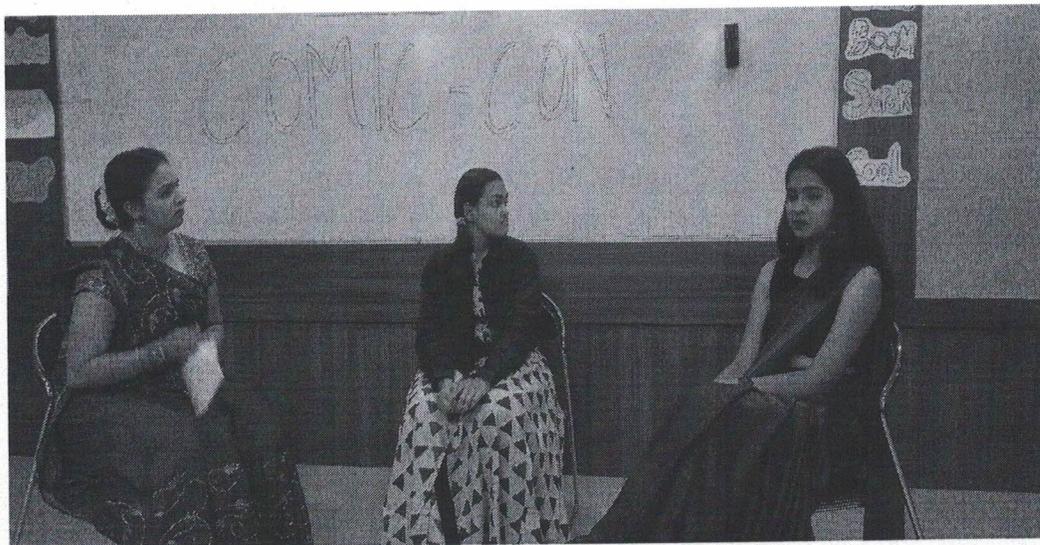

Music, Entertainment, Literature and Arts.

It is going to be a carnival for everyone who has an interest for music, who snacks on entertainment, who seeks solace in literature, and for the ones with an eternal love for art.

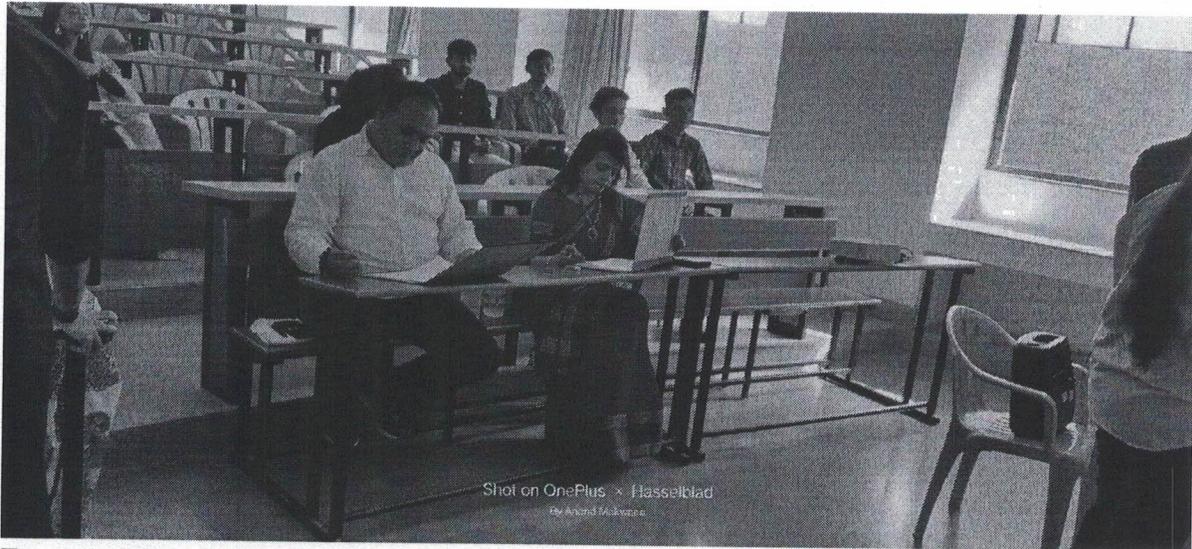

### EVENT 4- COMIC CON

This competition is to motivate students to be in someone else's skin for a day. Dress-up encourages creative thinking and communication skills. Dress-up engages your brain and memory. A Dramatic play requires students to remember what they've seen or heard. They remember how their mother behaves while performing household chores when they are imitating her. Or they recall the details of a fairy tale they've heard before acting it out.

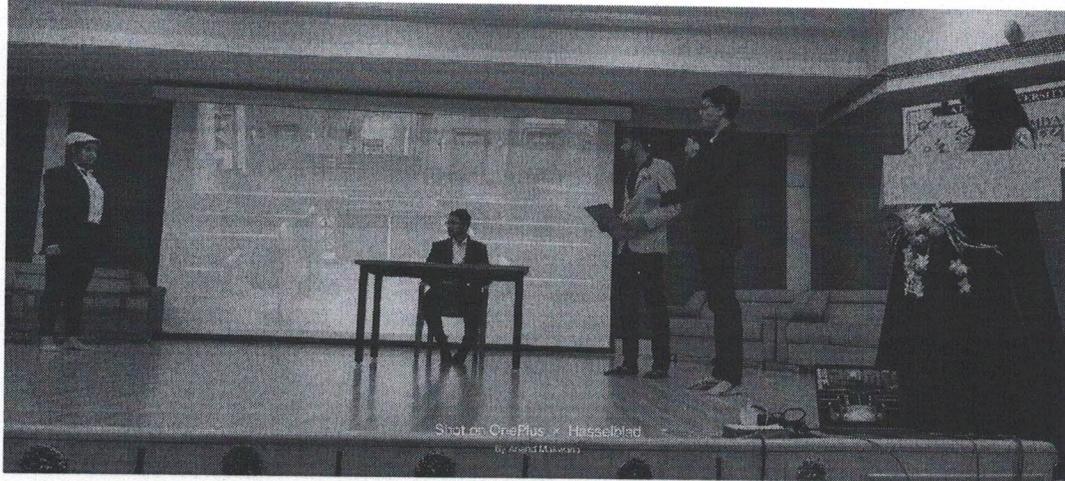

### EVENT 5- MOVIE REVIEW

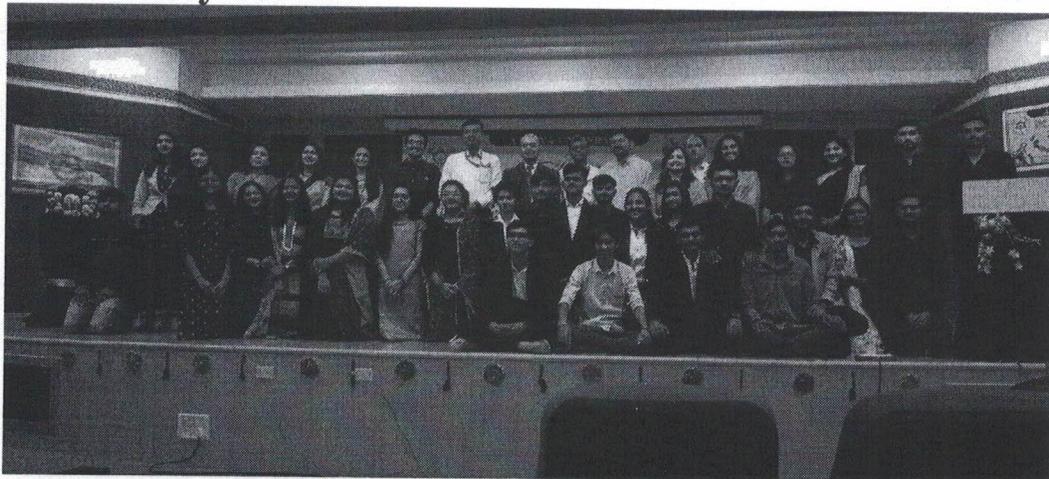

Movie Review Competition is organized to bring out the critical abilities of the students with fun. Students are inclined to watch movies for fun but through participating in this competition, they will cultivate their analytical skills and give their opinions and views on movies.

Women's day was celebrated with great energy and vigour by students and faculties of the Department. The celebration was divided into two sections. The first session was handled by the students of the department by organizing a quiz on women. The second session was a speech by a renowned singer and professor at the Department of English, Saurashtra University, Dr Dhvani Vachrajanni. Being a partially blind individual reaching the heights of success she shared her inspiring personal and professional story with the students. This provided students with a huge motivation to move forwards in life with the grace of God and gratitude in their hearts.

HAPPY NAVRATRI

# ATMIYA Shakti Parva

Navratri Garba is a traditional Gujarati folk dance performed during the nine-day Hindu festival of Navratri, which celebrates the goddess Durga. Garba involves dancing in circles around a central object or idol, such as a lamp (*garbo*) or an image of the goddess, symbolizing the cycle of life and the divine feminine energy. Originating from the state of Gujarat in western India, Garba involves rhythmic circular dancing performed around a central symbol, often a clay lamp (*garbo*) representing the goddess's presence or energy. The dance symbolizes the cyclical nature of life, creation, and devotion, reflecting Hindu beliefs about birth, death, and rebirth.

Atmiya University has organized ATMIYA Shakti Parva – Rass Garba Competition for all the female members of atmiya university on 19/10/2021, Tuesday from 05:00 pm to 07:30 pm. Location was AU Central Plaza near fountain at atmiya university campus.

## **ABOUT PROGRAMME:**

Tree-planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, Or landscaping purpose. It differs from the transplantation of larger trees in arboriculture, and from the lower Cost but slower and less reliable distribution of tree seeds. Trees contribute to their environment over long periods of time by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe.

## **OUTCOME OF PROGRAMME**

Tree Plantation drives combat many environmental issues like deforestation, erosion of soil, desertification in semi-arid areas, global warming and hence enhancing the beauty and balance of the environment. Trees absorb harmful gases and emit oxygen resulting in an increase in oxygen supply.
